- Keep and report data on absence, issues etc

## SKILLS

JavaScript

ES6

CSS3

HTML5

Bootstrap4

C/C++

Git

Github

Jquery

## PERSONAL PROJECTS

### GSM Based Home-automation

- It's my final year project
- In this project, I used Arduino UNO along with GSM to control electrical and electronic devices from anywhere in the world via sms. When we send predefined coded SMS to the SIM card of GSM, the device turns off or on. We also get the status of whether the device/devices are on or off by SMS it also shows the status into an LCD display
- **Technology used:** GSM
- Programming Language: C/C++

### Port-Folio Website

- It's a completely responsive website where I have given some of my info
- **Technology used:** HTML5,CSS3,Javascript,Jquery

### Pig-Game

- It's a simple dice game. Players take turns to roll a single dice as many times as they wish, adding all roll results to a running total, but losing their gained score for the turn if they roll a 1. The player who scores 100 quickly, wins the game
- **Technology used:** HTML5,CSS3,Javascript

### Panda-commerce

- It's completely responsive single page Ecommerce website
- **Technology used :** HTML5,CSS3,Bootstrap

## ORGANIZATIONS

Competitive Programmer's Union(CPU),Islamic  
University,Kushtia (05/2017 - 04/2019)
